Current Research

Lucy Reading is a Hydrologist working for the Queensland Department of Natural Resources and Water. Her current research activities are focused on the hydrology and geochemistry of the Lower Burdekin groundwater systems.

Research Interests / Capabilities

- Analytical chemistry.
- Environmental chemistry, particularly hydrochemistry.
- Groundwater hydrology.
- Groundwater modelling.

Recent Professional Experience

- Hydrologist, Department of Natural Resources and Water (2004 - present)
- Chemist, Australian Laboratory Services (2004)
- Laboratory Demonstrator, QUT (2003)
- Laboratory Technician, Roche Mining (2002 - 2003)
- Laboratory Assistant, Bayer Cropscience (2000 - 2001)

Qualifications

- B. App. Sc. Chemistry and Environmental Science, Queensland University of Technology, 2002
- B. App. Sc. (Honours) Environmental Science, Queensland University of Technology, 2003
